A. GENERAL REQUIREMENTS. The Contractor at its sole expense shall procure and maintain, during the entire period of performance under this contract, the types of insurance specified below. The Contractor shall have its insurance broker or insurance company submit a Certificate of Insurance to the CO giving evidence of the required coverage prior to commencing performance under this contract. In no event shall any work be performed until the required Certificates of Insurance signed by an authorized representative of the insurer(s) have been provided to, and accepted by, the CO. All insurance shall be written with financially responsible companies authorized to do business in the District of Columbia or in the jurisdiction where the work is to be performed and have an A.M. Best Company rating of A- / VII or higher. Should the Contractor decide to engage a subcontractor for segments of the work under this contract and wish to propose different insurance requirements than outlined below, then, prior to commencement of work by the subcontractor, the Contractor shall submit in writing the name and brief description of work to be performed by the subcontractor on the Subcontractors Insurance Requirement Template provided by the CA, to the Office of Risk Management (ORM). ORM will determine the insurance requirements applicable to the subcontractor and promptly deliver such requirements in writing to the Contractor and the CA. The Contractor must provide proof of the subcontractor's required insurance prior to commencement of work by the subcontractor. If the Contractor decides to engage a subcontractor without requesting from ORM specific insurance requirements for the subcontractor, such subcontractor shall have the same insurance requirements as the Contractor.

All required policies shall contain a waiver of subrogation provision in favor of the Government of the District of Columbia.

The Government of the District of Columbia shall be included in all policies required hereunder to be maintained by the Contractor and its subcontractors (except for workers' compensation and professional liability insurance) as an additional insureds for claims against The Government of the District of Columbia relating to this contract, with the understanding that any affirmative obligation imposed upon the insured Contractor or its subcontractors (including without limitation the liability to pay premiums) shall be the sole obligation of the Contractor or its subcontractors, and not the additional insured. All of the Contractor's and its

subcontractors' liability policies (except for workers' compensation and professional liability insurance) shall be endorsed using ISO form CG 20 01 04 13 or its equivalent so as to indicate that such policies provide primary coverage (without any right of contribution by any other insurance, reinsurance or self-insurance, including any deductible or retention, maintained by an Additional Insured) for all claims against the additional insured arising out of the performance of this Statement of Work by the Contractor or its subcontractors, or anyone for whom the Contractor or its subcontractors may be liable. These policies shall include a separation of insureds clause applicable to the additional insured.

All liability coverages must be scheduled under the umbrella and/or excess policy. The insurance required under this paragraph shall be written in a form that annually reinstates all required limits. Coverage shall be primary to any insurance, self-insurance or reinsurance maintained by the District and the "other insurance" provision must be amended in accordance with this requirement and principles of vertical exhaustion.

B.4 Special Provisions Related to the Covid-19 Emergency

- B.4.1** Contractors who provide goods or perform services in person in District of Columbia facilities or worksites (“On-site Contractors”) shall ensure that each of their employees, agents, subcontractors, and supervised volunteers have been either (i) fully vaccinated against COVID-19 (as defined herein) or (ii) have been granted one of the exemptions identified below, are undergoing weekly COVID-19 testing, and only reporting to the District workplace when such test result is negative.
- B.4.2** Except as provided in B.4.3, On-site Contractors may grant to their employees, agents, subcontractors, and supervised volunteers the following exemptions from vaccination against COVID-19:
- a. Persons who object in good faith and in writing that the person’s vaccination would violate their sincerely held religious beliefs and the granting of the religious exemption would not impose an undue burden consistent with federal law;
 - b. Persons who have obtained and submitted written certification from a physician or other licensed health professional who may order an immunization, that being fully vaccinated is medically inadvisable as a result of the person’s medical condition. If such condition is temporary, a medical exemption may only be granted until the date on which taking the vaccine would no longer be medically inadvisable; or
 - c. Persons who agree to be tested weekly for COVID-19 and provide a negative COVID-19 test result on a weekly basis.
- B.4.3** On-site Contractors may only grant to their employees, agents, subcontractors, and supervised volunteers who work in (i) a public, public charter, independent, private, or parochial school in the District, or (ii) a child care facility regulated by the Office of the State Superintendent of Education, the exemptions described in B.4.2(a) and (b), and shall not grant those persons the exemption described in B.4.2(c).
- B.4.4** On-site Contractors shall require their employees, agents, subcontractors, and supervised volunteers who have received one of the exemptions under B.4.2 to wear a mask in the District facility or workplace and to provide the On-site Contractor with a negative COVID-19 test result on a weekly basis in order to report to work at the District facility or workplace.
- B.4.5** The District may request a certification of compliance with this provision, proof of vaccination status, exemption documentation, and/or COVID-19 test results from On-site Contractors.
- B.4.6** An On-site Contractor may impose stricter masking, vaccination, or testing requirements on their employees, agents, subcontractors, and supervised volunteers.
- B.4.7** For purposes of this provision, “fully vaccinated” means a person has received all vaccines and boosters recommended by the CDC.
- B.4.8** The Contractor is required to comply with City Administrator’s Order 2022-3, Mask Requirements Inside Certain District Government Buildings and Offices, dated April 14, 2022, and all substantially similar mask requirements including any modifications to the Order, unless and until they are rescinded.
